Praise be to GOD who honored and favored humans with knowledge over the rest of his creation. Praise be to God who made humans his secretariat in this world.

It is with great pleasure, honor and pride, we publish the first issue of Sudan Heart Journal, an event which marks a distinctive moment of the history of Cardiology practice in Sudan. We would hope for this young Journal to be a real bonus and treasure for the scientific medical literature in Sudan. This could not be possible without your continuous support which would ensure the continuity and usefulness of this periodic.

I would urge all our colleagues: Doctors, Technicians and Nurses to register at the journal website and actively contribute by submitting their interesting topics.

We have made this process user friendly through online submission of manuscripts and the ability to trace the progress of the publication process online. All submitted manuscripts will be reviewed by the scientific committee, which will be blinded to the identity of the authors to ensure fair evaluation of papers.

I would like to thank those who made this history by contributing to the topics of this issue and wish our readers an enjoyable fruitful reading.
