Abstract

Sudan Heart Journal and Sudan Heart Society pay tribute to Dr. Mustafa Ibrahiem Mohammed (1971–2020), Consultant Cardiologist and Director of Medani Heart Center and Assistant Professor at University of Gezira, who passed away on May 27, 2020 during the COVID-19 pandemic.

Dr Mustafa Ibrahiem Mohammed

1971-2020

Dr Mustafa was born in Alfao in Gezira state in 1971. He had his primary school and middle school education in his hometown. He had his secondary education at Khor-Omer secondary school to have his medical degree from the Faculty of Medicine at Gezira University.

Dr Mustafa had his Internal Medicine specialization from Sudan Medical Specialization Board (SMSB) to serve as a consultant physician at Alfau Teaching Hospital from 2008-2013. Meanwhile he was appointed as Assistant professor at the Department of Medicine, Faculty of Medicine, Gezira University in 2012.

Dr Mustafa joined the SMSB cardiology fellowship program from 2013 to 2016. Upon graduation Dr Mustafa returned to his home state and served as a consultant cardiologist and director of Medani Heart Center.

Dr Mustafa succumbed to COVID-19 on May 27th, 2020. His death was a great loss and shocked the medical and cardiology community. He was a dedicated, highly-motivated cardiologist who served his community and was very supportive of his staff.

He was more importantly a caring and loving husband and father of four.
